LEARNING CONTRACT

Student Name: _____ **Student ID:** _____

Programme of study: _____

Programme Leader name: _____ **Date:** _____

The purpose of a Learning Contract is to enable a student to complete course work outside the designated time frame where there has been any of the following:

- Exceptional circumstances
- Where the student has shown sufficient effort towards completion but did not deliver on time and requires academic assistance

Learning Contracts are the last resort for students who are at risk of failing one or more course(s). Programme Leaders are able to recommend that students consider a Learning Contract and they are awarded on a case-by-case basis by the Education Subcommittee and will require evidence of extenuating circumstances and work on assessments to date.

A Learning Contract can cover up to six assessments. Any more than six outstanding assessments will require the student to re-enrol at their own cost. All learning assessments **must be completed by 1st December** of the current academic year. If this is not possible a Learning Contract cannot be issued and the student must re-enrol. All academic assistance provided to those on a Learning Contract is free of charge. There is however administration costs associated with these increased processing requirements. A one off \$75 administration fee will be normally charged to set up and monitor a learning contract as well as a marking fee for each assignment charged at \$25 per hour.

A maximum 50% mark will apply for all assessments covered by the learning contract. However, if student completes and uploads their Learning Contract assessment to Moodle by the due date and time stated on the COD, they must advise Faculty Support and Programme Leader by email. In this circumstance the student will receive their Full Mark for that assessment.

Failure to complete assessments by the new due date will result in a FAIL for that course and re-enrolment at student's own cost.

Steps

1. Programme Leader becomes aware that a student is struggling and considers the student an appropriate candidate for a learning contract.
2. Programme Leader meets with student to:
 - a) Discuss the situation.
 - b) Suggest/explain a learning contract including fees and that approval is needed by Education Sub-Committee.
 - c) Discusses possible new realistic due dates for assessments.
3. Programme Leader obtains appropriate supporting documentation from the student and seeks approval from Education Sub-Committee.
4. Programme Leader advises student of the outcome of the application for a Learning Contract.
5. Programme Leader liaises with Faculty Support to arrange signing of the learning contract (if not done during the initial meeting with student) and to take payment. **www.wellpark.co.nz**
6. Learning contract is stored on the students file.
